# Sigma Labs Receives ASME Best-in-Class Innovation Award

***AM Quality Assurance Company Recognized for Additive Manufacturing Measurement and Analysis***

**SANTA FE, NM / ACCESSWIRE / June 29, 2021** /[Sigma Labs, Inc.](https://www.sigma-labs.com) (NASDAQ:SGLB) ("Sigma Labs"), a leading developer of quality assurance software to the commercial 3D metal printing industry, was recognized at the June 17 American Society of Mechanical Engineers' AM Tech Forum, as the winner of the Best-in-Class Innovation Award for Additive Manufacturing Measurement and Analysis.

Approximately 40 demonstration videos covering five technology categories were submitted to the judging panel. Sigma Labs' entry showcased the latest release of the PrintRite3D monitoring solution including features that make it easier to find anomalies in process data, as well as production fleet optionality with machine-to-machine qualifications, and multi-laser system support. A list of all award winners can be viewed at:

<https://event.asme.org/AMtechforum/AMnews/First-AM-Innovation-Awards>.

According to Lauralyn McDaniel, ASME's Industry Events Manager, "Winners were chosen based on multiple criteria including impact on speed, cost, and quality; range of potential use across applications and industries; level of innovation-from an improvement to a game changer; and how likely they would purchase. By combining scores of a diverse judging panel of [AM industry experts](#) in medical devices, aerospace, automotive, energy, consumer goods and other sectors, with ratings from the audience, winners were announced in five categories:

- Machines & Processes

- Materials
- Software
- Measurement & Analysis
- Startup

Mark Ruport, President and CEO of Sigma Labs, stated, "Our entire company is thrilled to have won the best-in-class innovation award for measurement and analysis. It is gratifying to be recognized for the work we are doing - along with our partners and standards organizations - to improve quality and accelerate the growth and prosperity of the additive manufacturing industry. Most importantly, this achievement was a total team effort."

### **About Sigma Labs**

Sigma Labs Inc. is a leading provider of in-process quality assurance (IPQA®) software to the additive manufacturing industry. Sigma Labs specializes in the development and commercialization of real-time monitoring solutions known as PrintRite3D® for 3D metal advanced manufacturing technologies. PrintRite3D detects and classifies defects and anomalies real-time during the manufacturing process, enabling significant cost-savings and production efficiencies. Sigma Labs believes its software product will be a major catalyst for the acceleration and adoption of 3D metal printing. ### **Forward-Looking Statements**

This press release contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (which Sections were adopted as part of the Private Securities Litigation Reform Act of 1995). Statements preceded by, followed by or that otherwise include the words "believe," "anticipate," "estimate," "expect," "intend," "plan," "project," "prospects," "outlook," and similar words or expressions, or future or conditional verbs such as "will," "should," "would," "may," and "could" are generally forward-looking in nature and not historical facts. These forward-looking statements involve known and unknown risks, uncertainties and other factors. Among the important factors that could cause actual results to differ materially from those indicated by such forward-looking statements are risks relating to, among other things, market and other conditions, Sigma Labs' business and financial condition, the extent of the market's acceptance of PrintRite3D version 7.0, Sigma Labs' ability to satisfy its capital needs through increasing its revenue and obtaining additional financing, and the impact of COVID-19, general economic, industry or political conditions in the United States or internationally. The Company disclaims any intention to, and undertakes no obligation to, revise any forward-looking statements, whether as a result of new information, a future event, or otherwise. For additional risks and uncertainties that could impact the Company's forward-looking statements, please see disclosures contained in Sigma Labs' public filings with the SEC, including the "Risk Factors" in Sigma Labs' Annual Report on Form 10-K, and which may be viewed at [www.sec.gov](http://www.sec.gov).
